AN AMERICAN HERITAGE

BRISTOL, PA., SATURDAY EVENING, OCTOBER 25, 1947

The right of free elections is the greatest American heritage. There is more to the right of free elections than merely voting. Voting alone won't guarantee freedom. As a matter of fact, several dictatorships have made voting compulsory. As long ago as when Napoleon was trying to become Emperor of France, he 'ran" for power-and he got "elected" by an overwhelming landslide. Votes obtained by pressure and cast in ignorance, made him a pre-dictator boss of France, plunged that nation into endless wars, and left the people so broke they haven't recovered in more than a century.

What is a free election? First, the vote must be secret. The moment it is possible for someone to determine how each citizen votes, then it also be of a non-sectarian nature and becomes possible for that person to compel the individual to will consist of singing the harvest vote according to his orders. Third, for true free elections, the citizens must vote. Not all of them, of course—there will always be those who are ill on election day, or unavoidably away from home, or who for some other reason can't get to the polls. But enough voters must cast their ballots to fairly reflect the judgment of the electorate.

It is an unhappy fact in American politics that in many elec ions enough voters stay at home to have changed the result. Voting is more than a right—it is a duty!

It is the one great safeguard of American freedom. In their recent gatherings both organizations taked their political future on the utcome. THE final embarrassment is that the Greens, Murrays, Whitneys and Tuesday others, who by the unrestrained ferocity of their depunciations are irrevocably committed and yet certainly are not Communists, nevertheless find the Communists are with them on their chief "objective."
